
VIII. COUNTY INPUT ON GOALS AND OBJECTIVES

A. Format for County Input

Input from participants at the county meetings is summarized in the following tables. This includes objectives (and sometimes strategies) recommended to the CEDS Committee as potential methods for achieving their separate county visions.

Goal statements reflect the summarized input from all six counties, and are the same as those in the Regional Action Plan. Potential assistance from DRG is also indicated in the table.

For Alamosa, Mineral, and Rio Grande, the input evolved as part of the group discussions and visioning process. Projects listed for Costilla County follow a pre-adopted county plan discussed at the meeting. Conejos and Saguache also have active planning groups, and a number of pre-defined priorities are reflected in their listings.

Keys to the acronyms used for DRG assistance are as follows:

- **GS** = General support.
- **DR** = Data and research.
- **FS** = Feasibility study.
- **TA** = Technical assistance.
- **RLF** = RLF loans.
- **OA** = Other assistance.

B. Listings of County Input

Tables containing the input from each county are included on the following pages.
